## TAMPOPRINT AG – Your system partner!

TAMPOPRINT AG is a well-established partner of the European brand manufacturers in the sector of electrical household appliances (white goods).

Our automations are often in operation 24h a day.

As a partner of many well-known companies and their suppliers we have developed a very high know-how in this industrial sector. Our high-quality automations and standard machines are marking and printing every day countless housing parts and panels of any kind.

Our pad printing and laser marking automations meet the highest quality requirements when used in multi-shift operation with high throughput speed. As far as special solutions are concerned, our project management has many years of experience also in this field.

Highest precision of the print image registration on convex, round or flat parts using the pad printing process, one to multicolour, in colourful micro printing are a matter of course and meet the high standards of modern industrial products. Process monitoring using camera systems will secure the quality of your production.

Whether smallest parts, difficult shape formings or large-sized components, smallest texts and scales or colourful areas, TAMPOPRINT has the suitable automation as well as pads and printing inks tested by LGA (test institute based in Germany) for you.

Machine construction – simply "Made in Germany".
